## General

GF Piping Systems introduces the Schedule 80 Union Type 375 fittings. Available size options range from 1/2" to 2" in both PVC and CPVC material, all with a pressure rating up to 235 psi at 73°F. Type 375 Unions are available with socket by socket or threaded by threaded ends.

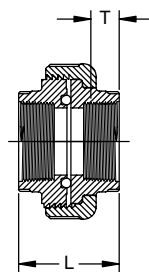

The 375 Unions are specifically engineered to connect with the Type 375 True Union Ball Valves. The unions and ball valves are ideally suited for basic applications encompassing the water processing/treatment sector, as well as other applications involving water.
